

PAUL GODLEY TRANSATLANTIC CENTENNIAL EVENT CALENDAR - DECEMBER 2021

Historic website: <https://www.transatlantic.org.uk> - and -
<http://www.internetwork.com/radio/nlbcg/>
Clark n1BCG summary of events: <https://forums.qrz.com/index.php?posts/6016880/>

Most transmissions will be CW only.

Most transmissions will be on the lower end of the 160 meter band (1800 to 1850 kHz suggested)

December 1 - 26

Special event station GB1002ZE and GB2ZE (2ZE was Paul Godley's callsign) Crocodile Rock Amateur Group near Ardrossan. In addition to the radio celebrations, North Ayrshire Council (in collaboration with CRAG) have jointly created an exhibition surrounding this Centenary which will be hosted in the North Ayrshire Heritage Centre, Saltcoats. This exhibition opens from 1st Nov through to Mid-December 2021.

December 3-5

2021 ARRL 160 meter contest. RSGB will activate special event 1920s vintage callsigns to commemorate the transatlantic tests.

December 11 - 31

W1AW ARRL Newington, CT - Issuing commemorative transatlantic QSL cards. On-air December 11 - 1400UTC to December 12 0200 UTC. US stations should QSL with a SASE; international stations should QSL via the Bureau.

**** Saturday December 11 0250-0300 UTC Exact time of retransmission ****

160 meter Transatlantic Centenary QSO Party
W1AW ARRL Newington, CT 0200 - 0800 UTC December 12
GB2ZE RSGB Scotland 0200-0800 UTC December 12
W1AW will be operating CW *and* phone until 0200 UTC on December 11
to maximize the number of participating stations, so not all transmissions will be CW only.

Kilmarnock and Loudoun Amateur Radio Club -
Ardrossan, Scotland on North Crescent Road along the beach.
1200 UTC Saturday December 11 to 1200 UTC Sunday December 12
Special event station adjacent to the original location of the Paul Godley experimental station at Ardrossan Scotland (circa 1921.)
Callsigns: GS2ZE (license holder Jason GM7VSB) and GB1002ZE (license holder Bob GMODEQ.) CW, SSB and data modes on bands between 160m and 10m. An attempt will be made to re-enact Godley's original successful reception of transatlantic signals exactly on the same time and date as 100 years ago.

1821 kHz (+-) W2AN/1BCG Vintage Radio and Communications Museum of Connecticut, 115 Pierson Lane, Windsor, CT QST ONLY - NO RECEIVE Every 15 minutes between 2300 UTC December 11 and 0445 UTC December 12 using replica transmitter @ 200 watts apx. Inverted L antenna. AWA will display replica transmitter Saturday afternoon, December 11 - open to the public. All-day YouTube channel (schedule TBA) Reception certificate requests to: 1BCG@AntiqueWireless.org

1825 kHz (+-) W2RCA Radio Club of America (from K1KI - West Suffield, CT) Evening of December 11 into December 12. Will be sending one-way transmission at precisely 0252 UTC December 12 to re-enact the transmission first heard by Paul Godley 100 years ago. Special certificate for listeners will be available at the RCA website: <https://radioclubofamerica.org/>

GMDX Group of Scotland - Ardrossan, Ayrshire - will be listening for North American transmissions, Barry GM3YWH station manager at Ardrossan.

LONGWAVE: Transatlantic Centenary / 630 Meter Operating Event - 472.5 kHz beginning at 2100 GMT December 11

TBA

ARRL transatlantic marathon
